Sauce and Spoon Test Launch
Customer Survey Results

We conducted a survey for the 50 customers that participated in our test launch. For the test launch, we asked the customers to engage with the newly implemented tablets, as if they were participating in a typical restaurant experience. The customers were sent a digital survey after their experience ended.

In the results below, you will see the total number of people who selected each possible response and, where applicable, what percentage of the total respondents they represent.

Yes	6	12%

If yes, please describe what went wrong.

- The screen froze
- It was glitchy
- It kept freezing but after the waiter did a reboot it was fine
- It froze up a couple times

16. Please tell us anything else about your experience with our new tablet ordering system:

- The tablets were fun!
- I liked the tablets - it felt like we got through our dinner faster
- I liked the video about Sauce & Spoon on the tablet
- The tablet was glitchy but it might've just been our table
- Please give us the option in the future of choosing a waiter
- The tablet were cool but I think we need to get used to them
